

# Strategic Analytics

**Early Warning. No Surprises**

*Custom Program Management  
Support Services*

*Proactive Support. Cutting-edge Communications.*

We specialize in custom multi-level program management support services that prioritize cost and schedule savings for complex high-value programs.

Our NASA-proven Early Warning System (EWS) uses predictive analytics, advanced communications methods, and expert multi-disciplined analysts for proactive risk mitigation that optimizes programmatic value on complex programs.

“ SA leadership has a unique ability to gather the facts, assess technical, cost, and schedule risks, and quickly develop the key messages management needs to hear.

**Kalli Clark-Egan, USACE**

The Early Warning System (EWS) enabled cost and schedule-saving for NASA’s Constellation Program.

## Past Performance

**PIT International Airport Modernization Program**  
Pittsburgh, PA 2020-present  
program control management services including  
customized program dashboard

**Axiom Space - Space Station Project**  
Houston, TX 2021-2023  
business plan, operations strategies &  
organizational implementation

- SA's EWS (Early Warning System) highlighted \$16M in multiple programmatic investments that saved \$235M+ in cost, schedule, and risk impact avoidance for our client and \$125M in cost avoidance during design.
- SA provided a strategic plan for construction under complex socioeconomic conditions for our client.
- SA supplied financial planning for our client with multiple streams of government funding and cost savings opportunities during cost estimate validation.

## Key Differentiators

### RISK RESILIENCE

Our NASA-proven EWS (Early Warning System) engages predictive analytics to track and identify programmatic threats at inception

Leadership receives decision options to prevent program impact

### VALUE OPTIMIZATION

EWS identifies programmatic investment options and untapped cost and schedule savings

Multi-disciplined experts perform cost, schedule, and technical analysis holistically for increased efficiency, performance, and value

### CUTTING-EDGE COMMUNICATIONS

Customized program dashboard to visualize and track total program health

Time-saving communication strategies that include decision timeline with strategic insights

### CUSTOM SUPPORT ACROSS THE LIFECYCLE

Analytical scheduling integrated with cost and technical elements

Cost estimate validation with cost savings opportunities

Cutting-edge performance assessments enhanced by predictive analytics

Program planning in design phase to optimize performance; strategic planning to navigate complexity

## Core Competencies

- Customized Program Dashboards
- Strategic Assessments
- Risk Management
- Cost & Schedule Analysis
- Financial Planning
- Budgeting, Spending, Funding
- Program Planning
- Performance Measurement
- Program Organization Development
- Cost Estimate/ Cost Validation
- Earned Value Management (EVM)
- Program Management
